PROFILE

I am a creative and inquisitive Computer Science scholar, interested in Data availability, accessibility and analytics, strategic solutions in Information and Communication Technology (ICT). I am currently seeking an entry-level opportunity that would allow me to connect today's society with the technology of tomorrow, while simultaneously utilizing my technical skill set, and growing my professional foundation by working with firms, organizations or companies that are looking to make effective use of their data. I accurately measure data, from the first set of ideas surrounding it.

WORK EXPERIENCE

Data Analyst and Team Lead | BluetickNG. (Remote).

June – December, 2022

- Team Lead: Partnered with track leads and subject matter experts to determine project requirements, built KPIs.
